CHICAGO IS SELECTED

Chairman Bynum Names Part of His Executive Committee-How the Convention Profited This City.

Little remained yesterday as a reminder of the convention which closed its session here Thursday. Some of the delegates left for their homes the evening before and at noon yesterday only a few stragglers remained about the corridors of the hotels. Among those who took their departure were the nominees for President and Vice President. Senator Caffery, who was the permanent presiding officer of the convention, left for his home in New Orleans yesterday afternoon. Among those who were still in the city yesterday are a majority of the members of the national committee and leaders who will be consulted as to the con-

duct of the campaign. The hotels have begun the removal of their decorations, the blare of the brass bands has been silenced or is out of hearing, and the State banners are being homeward borne. Most of the Florida delegation were still in the city in the morning, but they, too left for the South in the afternoon. A graceful act the delegation performed just before its return home was to present the gold alligator, which was a feature wherever the delegation appeared, to the national committee. The gift was accepted and will be one of the decorations at the headquarters when they are selected. Chairman Bynum, of the national committee, had a busy time of it. He and Secretary Wilson were at the Grand Hotel yesterday morning in consultation with members of the committee, and with such other leaders as put in appearance. Mr. Bynum reached the rooms of the national committee in the Lemcke building at noon and there found a room full of people awaiting him.

four members of his executive committee. These were W. B. Haldeman, of Louisville, Ky.; L. C. Krauthoff, of Kansas City, Mo.; T. W. M. Cutcheon, of Minnesota, and John C. Bullitt, of Philadelphia. The other members of the committee he thought might be selected during the day. Mr. Bynum said that it had been decided that the headquarters of the committee should be located at Chicago, but quarters for the committee's use had not been secured yet. The effects of the committee would probably be removed to that city within the next ten days, and the affairs of the campaign would be pushed with energy and expedition. Mr. Bynum said that nothing had been done in the direction of choosing a secretary, and that matter would not be settled until the executive committee was appointed and had been called to-

The committee is just now directing its nergies to the end that the notification energies to the end that the notification ceremonies, which are to be held at Louisville on the 12th, shall be a great success. The Kentucky delegation before it left for home promised that the demonstration on the occassion referred to should be one of the most imposing in the history of the State, and the expectation is that it will rival the affair in New York when Bryan and Sewall were notified of the dignity that had been thrust upon them. The that had been thrust upon them. The make-up of the committee on notification was left to the several States, each that was represented in the convention to select its member, and any vacancies that there may be to be filled by Chairman Bynum by appointment.

#### ABOUT \$40,000 LEFT IN TOWN.

Convention a Great Thing for Indianapolis-The Expenses. Now that the great convention of the National Democrats is ended and has already become one of the most memorable pages in the history of the latter end of the nineteenth century, those who were instrumental in bringing it about and who worked long and arduously to make it a success are casting up accounts. This work has not yet been completed. Evans Woollen, secretary of the Commercial Club, has left town for a few days' rest and it is altogether likely that the finance subcommittee of the Commercial Club and Board of Trade joint committees will not meet for several days to audit bills. Until the committee meets it will be impossible to learn just how much money was expended. There are innumerable items of expense, none of them very heavy, but in the aggregate making quite a sum. It is estimated that the expenses will amount to \$3,500 or \$4,000. One of the largest items will be the expenses of arranging and decorating Tomlinson Hall, although the bills for committee headquarters at hotels, music, etc., will be pretty heavy. No one will begrudge the money, as it is conceded that the work could not have been done in a more satisfactory and pleasing manner. Newspaper men from all parts of the country who have been in the habit of attending national conventions were outspoken in as-

serting that no hall had ever been better arranged or more beautifully decorated. Every one must have noticed that there was an unusually large number of strangers in town, but as they did not all come on the same day their presence was not so preceptible until Wednesday, the biggest day of the week in point of crowds. A. A. Zion, superintendent of the Union Station, says he estimates the crowds that were here at from twelve to fifteen thousand. "It is a very hard matter to determine exactly how many people were drawn here by the convention," said Mr. Zion, "as they did not all come at once. They began coming the latter part of last week and continued to arrive up till 2:30 o'clock Wednesday afternoon. The people who came stayed until the convention adjourned, so there was no very great throng about the station, as is the case when we run exstation, as is the case when we run ex-cursions. Take a big day during a State fair and you will find that most of the people come in the morning and go home he same day. I do not think there has been as large a crowd here since the G. A. R. encampment." This probably accounts for the fact that there was no immense throngs on the streets until Tuesday and Wednesday, al-

though that something unusual was trans-piring in the city was plainly to be seen Monday morning, and from that time until Thursday evening the stre ts were crossed. It was at the hotels, perhaps, that the greatest crowds were found and all of the largest hostelries had the largest business they have handled for several years, the largest, in fact, since the G. A. R. National Encampment just three years ago this week. Yesterday the clerks in all the hotels were busy calculating how much money had been paid by the guests, but as the work had not been completed, exact figures were not obtainable. Manager Cullen, of the Denison, said that he thought they had taken in \$10,000, although the amount might exceed that sum, while it might be a little less. Louis Reibold, proprietor of the Bates House, said that he might be a little less. had not given the subject of receipts any thought and could not say, even approximately, how much money had been taken in. At the Grand the clerks were not through going over the ledgers and nothing definite could be learned. It is thought, however, that their receipts and those of smaller hotels like the Spencer House and Occidental, will reach \$20,000. Inquiry at a few of the leading restaurants indicates that they took in about \$5,000 from strangers who were here to observe convention incidents. All told, it is believed that at least \$40,000 was spent here by delegates

and visitors to the convention.

Pecuniary questions not considered, Indianapolis has undoubtedly profited greatly by the convention. It has been a great advertisement and has been an educator, both of the resident citizens and strangers from other cities. After finding such perfect arrangements for the convention and ample accommodations at the hotels, newspaper men and prominent politicians ex-pressed wonder at the fact that none of the great national conventions have been held in Indianapolis heretofore, and it is thought that Indianapolis will be considered with much favor in the future when political parties are considering the ques-tion of holding conventions. Nothing but praise for the city and the managers of

Palmer and General Buckner, the nominees, left for home yesterday morning, as well as General Bragg. Among those to remain at the Denison were Mr. and Mrs. R. W. Knott, of Louisville; J. C. McReynolds, of Tennessee; ex-Mayor Hopkins, of Chicago, and John R. Fellows, of New York; Harry L. Brown, of the New York World; Edwin Fleming, of the Buffalo Courier, and A. Morris Low, of the Boston Globe. Controller of the Currency Eckels was still at the ler of the Currency Eckels was still at the Bates yesterday.

Tickets and Local People. The Sentinel, in its efforts to create the impression that the National Democratic convention was only a "little local affair," refers to the fact that many Indianapolis people were in the hall. This is true. Tickets were given out by the committee to the men who guaranteed the funds to pay the expenses. At all national conventions great many local citizens get into the

#### CANNOT SUPPORT BRYAN

PRESIDENT DUNMEYER, OF THE YOUNG MEN'S GRAY CLUB, RESIGNS.

Meeting Last Night-One Member Proposed to Ascertain if the Club Favored Sound Money.

Edward C. Dunmeyer, president of the Young Men's Gray Club, one of the oldest Democratic organizations in the city, tendered his resignation as president of the club last night, and it was accepted, although about twenty members of the club opposed its acceptance. It has been known that Mr. Dunmeyer is not in accord with the Bryanic branch of the party and that it has been his intention to identify himself with the sound-money organization. At day, he deemed it best to offer his resignalast night, Mr. Dunmeyer made an address, explaining his position. He said that inasmuch as he was not in accord with what seemed to be the sentiment of a majority of the club on the political issues of the day, he deemd it best to offer his resignation. Mr. Dunmeyer expressed an earnest desire to be guided in his actions by what seemed necessary for the preservation of the club. After handing the secretary his written resignation, Mr. Dunmeyer withdrew from the room. John W. Kealing acted as chairman pro tem. during the re-

mainder of the session of the club. Following the reading of Mr. Dunmeyer's resignation there was a short discussion of the situation. One member of the club favored the appointment of a committee to for sound money. He suggested that such a committee be appointed to report forthwith. Then, he said, it would be proper to consider Mr. Dunmeyer's resignation. If the club decided to identify itself with the honest-money movement Mr. Dunmeyer's resignation would be properly as the construction of the club decided to identify itself with the honest-money movement Mr. Dunmeyer's resignation would be properly as the construction of the club decided to identify itself with the resignation would be unnecessary. He re-ferred to the fact that fifteen or twenty members of the club sustain views on the political issue identical with those enterained by Mr. Dunmeyer. Another member of the club said that the matter of ex-pelling Mr. Dunmeyer from the club was not under consideration, and that the only question before it was whether or not his clared that the constitution provided under what circumstances a member could be expelled-among them being "conduct un-becoming a Democrat.". He declared that the proper thing was to consider the resignation separately and afterward take such further steps as the club might de-termine on. In his opinion Mr. Dunmeyer's resignation ought to be accepted, as he had clearly shown by his speech that he is not in accord with the county organization and that he cannot support the candidates nominated at Chicago. He said that he ap-preciated the fact that Mr. Dunmeyer had been one of the most earnest workers in the club and had been a very acceptable president, as he had been untiring in his efforts to perfect the organization and in-crease its influence and usefulness. There were other expressions of similar and that Mr. then a member Dunmeyer's resignation be accepted without going into to membership. Chairman Kealing further remarks, saying that he hoped there would be a thorough discussion of the subject. No further remarks were made and Mr. Kealing responded to cries for the question by saying "All those in favor of accepting Mr. Dunmeyer's resigna-tion as president of the club will say aye." "Aye," said a majority of those present, several not voting at all. There was no response when Mr. Kealing called for the negative vote and the resignation was declared-accepted When asked for a statement last night Mr. Dunmeyer replied that he could not talk, although he asserted that there was no trouble in the club and said that there

was nothing in the report that he intended It has been an open secret for some time te a number of Democrats in the sympathy with the sound-money movement and a number of them have declared privately that they cannot vote for Bryan. They have been adverse to taking any action that might disrupt the club, as they are men who have always had its good at heart and who have assisted in keeping it

Before the meeting of the club adjourned a committee composed of John E. Foley, Samuel V. Perrott, P. J. Gorman, Thomas H. Montgomery and John Merriweather reported a resolution indorsing the Chicago platform. It was adopted. Members of the club who were present say that the resolution was adopted without discussion bepresent, or were adverse to arousing any enmity. Mr. Dunmeyer's successor will enmity. Mr. Dunmeyer's successor will probably be chosen at the regular meeting next Friday evening.

#### A SHAFT IN HIS ABDOMEN. Fred Murry, a Cyclist, Collides with a Buggy.

Fred Murry, an employe of the Indiana Bicycle Company, about twenty-two years old, living at No. 73 Columbia avenue, ran into a buggy last night on Massachusetts avenue near Walnut street and was seriously injured. Murry was on the right side of the street coming south, and Leonard Merrill, who was in the buggy that did the damage, was on the same side of the street but going in the opposite direction. According to the story of patrolmen Diltz and Jones both men were going at a good rate of speed, and near Walnut street both reached a buggy that was going slower than Murry cared to move. At the same time each attempted to pass it on the same side, and, neither one seeing the other, they came together, but as the wheel was the lighter of the two vehicles Murry received all the damage. One of the shafts of the buggy entered Murry's body near the bottom of the abdomen, and the entrails protruded from the wound. city ambulance was called and removed the sufferer to the hospital, where moved the safeter to the hospital, where everything possible was done for him. Mer-rill was arrested by patrolmen Diltz and Jones and charged with assault and bat-tery, but he claimed at the station house that he was standing still and that Murry had ran into him.

Death of Mrs. Austin F. Denny. noon after an illness of about five weeks. Her maiden name was Mary Keehn and she came from Reading, Pa., when a child. afterward receiving her education in the local schools. She was a successful young teacher at the time of her marriage to Mr. Denny, in 1873, since which year she and her husband have lived in the same residence, on Delaware street near Seventh. She joined to rare attainments a taste for the beautiful in art and nature. She was a valued member of the Fortnightly Liter-ary Club and was known for the strength and brilliancy of the papers prepared by her. The Wednesday Morning Coterie was organized by her and met weekly at her house. Her death was due to inanition, resulting from nervous dyspepsia. On July 29 she started East with her husband and the complaint from which death resulted, prostrated her at Philadelphia. Aug. 1 she was taken to Ocean Grove and though stopping within two hundred feet of the sea, she was too ill to visit the shore. After a two weeks' stay there she was moved to the Presbyterian Hospital, of New York city, where she remained but four days, and was brought to Indianapolis to a sani-tarium, where the end came yesterday. The funeral services will be held at her late residence, 847 North Delaware street, Monday afternoon, at 2 o'clock.

the convention was heard about the hotel lobbies during the week.

Nearly all the delegates and distinguished visitors have left for home. General with the delegates and distinguished but to be and to be an

HARDYTO BE RE-ELECTED

DEMOCRATS AND POPULISTS IN SEC-OND DISTRICT AT WAR.

In Knox County Are Not Less than 650 Gold Democrats Who Will Not Vote for Bryan.

W. I. Overstreet, of Terre Haute, member of the Republican executive committee, arrived in the city yesterday after a week spent in the Second congressional district. Mr. Overstreet gives an encouraging account of Republican prospects down in that part of the State. He was in each of the counties composing the district and got his information not only from the politicians, but by direct contact with voters in the towns and from the country districts. He confidently predicts that Col. A. M.

Hardy will be re-elected to Congress and

that the district will give a majority for McKinley. Both the Democrats and the Populists have a candidate for Congress in the district, and up to date all attempts at fusion have proven unsuccessful. The Populists of the district take the position that since they have swallowed the Democratic party every place else, that there is no reason why they should not do it in the Second district, and they are demanding the withdrawal of ex-State Senator Miers, who is the Democratic nominee. The Democrats have flatly refused to accede to the Populist demand, and all the indications are that the congressional fight in the Secend district will continue to be three-sided. Colonel Hardy is confident that he will carry every county in the district, and that he will be returned to Congress by a majority exceeding that of two years ago, which was in the neighborhood of 2,000. The observations of Mr. Overstreet lead him to believe that the Republican defection on account of the silver issue will not exceed an average of twenty to the county while there is abundant evidence to indicate that the Democrats will lose an average of one hundred to the county on the money issue. The Democratic revolt in Knox county is especially serious. In the city of Vincennes, and, in fact, throughout the entire county the hard-money senti-ment is very strong and well-posted poli-ticians vouch for it that there are not less than 650 gold Democrats in the county who will refuse to vote for the Chicago ticket or for anything that bears the Popocratic brand. The Republicans in Knox county are confident that they will carry it, not only for the State and national ticket, but

that they will elect their candidate for the Fifth Ward Republicans Last night the Fifth-ward Republican Club was organized at the corner of Blake and North streets. This was the first meeting and 125 names appeared on the roll at its conclusion. The second meeting day night. Last night the meeting was addressed by D. B. Shideler, M. L. Taylor and Ben Haskell. Mr. Shideler created a that fit every-day affairs. Taking up the vein of thought advanced by General Harri-son in his New York speech, Mr. Shideler spoke of the merchant marking up his goods as soon as it was learned that Bry-an was elected, if such should be the case He said the merchant would immediately reason that with a dollar worth only 5 cents he must get two of them for what he now gets one, or he would lose money; so the morning after the election orders would be issued to his clerks to double all

"Now," said Mr. Shideler, handing a lead pencil to a man in the audience, "I would like to see you mark up your wages 100 per cent. What! You say you can't do it. No, that is true, and there are many men here who would like to be even able to mark down their names on a pay roll."

#### Harrison Has No Pitchfork.

While the convention was in progress the possibility of a joint debate between ex-President Harrison and Senator Tillman was discussed with some amusement. Such a thing is impossible, judging by General Harrison's words when he received a telegram from Tillman challenging him to de-bate. A man in this city who bate. A man in this city who was the guest of General and Mrs. Harrison was present when Tillman's telegram was delivered. General Harrison disposed of the whole incident with the humorous remark: "I can't enter into a contest with that man. I've got no pitchfork."

The Jesse Overstreet Club. The Jesse Overstreet Republican Club was organized last night with a membership of seventy-five. The following officers were elected: President, W. B. King; vice president, L. M. Arbuckle; secretary, Walter R. Connette; treasurer, G. T. Gale. The club has engaged rooms at the northwest corner of Indiana avenue and California street. The next meeting will be held at its rooms Wednesday night, Sept. 9, at 7:30.

High School Lincoln League. The meeting of the High School Lincoln League was well attended last night. The subject of uniforms was discussed, and an attractive dress of white trousers and caps was decided upon. It is the intention of the club, which, since having become affiliated with the national Lincoln League, is in constant correspondence with it, to take some active participation in the rally on the 14th.

#### Notaries as Election Officers.

The Attorney-general had a letter yesterday from a county constituent asking whether the fact that he was a notary would disqualify him from serving as member of an election board. The Attor-ney-general replied that it would not; that the issue of a commission as a notary pub-lic did not make a man an officer within the meaning of the statute.

#### A Candidate Against Cooper. At a secret meeting of the sound-money Democrats Thursday night the question of putting a congressional candidate in the field against Charles M. Cooper was con-

sidered, and the name of John A. Finch was received with considerable favor. Representatives from Johnson county will be present at another meeting which is to be Bryan Here in October. William J. Bryan will speak here early in October, and arrangements are being made to give him a big reception and thoroughly

advertise the event. Low rates of railroad fare will be arranged for, and political clubs from all parts of the State will be asked to participate. Rochford and the Governor. John J. Rochford, chairman of the Democratic county committee, denies that he is trying to control legislative nominations in

the interest of Governor Matthews's can-didacy for the Senate. He says that he is doing nothing in the interest of any one Kern to Take the Stump. It is said that John W. Kern will stump the State for Bryan. One of his speeches

St. Vincent's Infirmary Fair. At a well-attended meeting held at St. Vincent's Infirmary last night an organization was completed to have charge of the annual fair for the benefit of the hospital. J. H. McMorrow was elected president. Peter Oehler vice president, Miss Maggie Flarerty secretary and James L. Keach, treasurer. The fair will be held at Tomlinson Hall the week of Nov. 16. James Borden, John B. Briman and J. L. Keach were appointed to secure the hall. Another meeting will be held to-morrow afternoon at 4 o'clock, when the chairman will announce the names of the executive com-mittee, which is to be made up of three Indianapolis and the suburbs.

Didn't Come Back with the Change. Orris Moore, who has been in this city selling some sort of a fake medicine alleged to be Hood's Sarsaparilla, was landed in the station house last night by detectives McGuff and Wilson with the charge of petty larceny against him. Moore has been a bottle. In payment she gave him a five-dollar bill, which he could not change, but

VICTIM OF A LOW BRIDGE

UNKNOWN MAN KNOCKED OFF A BIG

Structure Responsible for More than Thirteen Deaths-Little to Identify This Man.

Last evening added one more victim to he number already claimed by the Nobletreet bridge over the Big Four tracks. This bridge has been the cause of more than a baker's dozen deaths. An unknown man was seen to roll off a freight car in ne Big Four yards east yesterday evening shortly after 6 o'clock. He was picked up and found to be still alive, but unconscious, with a large hole in the back of his head. The railroad men immediately telephoned to the City Dispensary for the ambulance, but before it arrived the man was dead. He was removed to Whitsett's morgue, where he now awaits identification.

He is about twenty-five years old, fully six feet high and probably weighs 160 pounds; has very dart hair, but not entirely black; a full face with prominent cheek bones and teeth that are large and almost perfect in front. He wore a dark suit, which appeared to have been used for working purposes. There was nothing in his pockets that would serve to identify him. Two small lead pencils, a ladies' handkerchief with a blue hem-stitched border, a colored muslin necktie, a cigarette and two envelopes, one containing a note, was all that was found in his pockets. The mote was addressed to the doorkeeper at Tomlinson Hall, dated Sept. 2, and was signed by W. J. Richards, of the News. it was on a News letterhead. It reads: "Kindly admit our representative with papers, and oblige the Indianapolis News Company, W. J. Richards, Manager."

Mr. Richards says he does not remember giving any such note to a man, but that such note was given to a newshoy. The such note was given to a newsboy. The supposition is that the boy lost it and this man found it. The other envelope con-tained nothing, but on the outside was written in pencil the name "Beatrice Earle." This was almost illegible. It was not placed there as if in addressing the envelope to her, but was written on one end of the envelope.

The railroad men who were with the train or which the man was killed did not train on which the man was killed did not know he was on the train. The first that was known of the matter was when the yard clerk in the yards east of State street

saw a body fall from the top of a car. There was no other place that the man could have been hurt except as the train passed under the Noble-street bridge, and from that the railroad men suppose that is the place where the accident asppened. From the large hole in the back of the man's head it would seem that he must have been sitting on the brake wheel of a low car or on the edge of a very high car, with his face to the rear of the train. This would bring his head just about high enough to strike the iron girders of the

#### WEST-SIDE FRANCHISES.

Haughville and West Indianapolis Propose to Have More Gas.

The West Indianapolis and Haughville authorities have instructed their attorneys to draw up franchises for the purpose of allowing the Keystone Gas and Oil Company to lay gas mains into the suburbs and action will be taken on these franchises at the regular meeting next week. The residents of the suburbs were not supplied with sufficient gas last winter, and during the recent cold morning the supply from the Indianapolis company was so weak, it is claimed, that many families were obliged to use wood or coal to prepare their morning meal. The Keystone company owns several wells north of the city, and claims that it has a pressure thirty-seven pounds greater than the largest well outside of its field. It also agrees to furnish gas at rates lower than those of the Indianapolis com-

Chief of Police Massing, of the West Indianapolis police force, reports thirty-eight arrests for the month of August, classified as follows: Gambling, 19; assault and battery, 6; drunkenness, 5; peddling without license, 3; grand larceny, 2; violating bicycle ordinance, 2; criminal assault, 1. police commissioners have supplied the members of the force with new handcuffs of the Tower's patent, double-lock, adjust-

TO BORROW \$140,000. School Board Will Buy Land and Erect New Buildings.

The School Board had a short meeting

last night with only four members present. The business did not necessitate a roll call, and for that reason the absence of a quorum was not officially shown. The most important business of the evening was the adoption of the report of the finance compeddling from house to house, and yester-day succeeded in impressing a lady with the good qualities of his goods and sold her tise for a loan of \$140,000 to be used to buy tise for a loan of \$140,000 to be used to buy land and erect new school buildings. The offered to get the change and return it to her. She consented, and that was the last seen of the fellow until he was arrested Place for the admission of the children of last night. new contract with the Trustees of Woodruff Place for the admission of the children of that place to the city schools on the same

# terms as the contract of last year was also adopted. Fred Kendall was appointed assistant in the high school physical laboratory at \$25 a month, and Edwin Stokes, Carrie Jackson, Mary Cotton and Belle Noel were appointed teachers, subject to assignment by the superintendent. The report of the secretary of the board showed that warrants to the amount of \$18,107.59 were drawn during August. The balances in the various funds are as follows: Special fund, \$162,064.17; Gregg fund, \$655.13; McCoy fund, \$1,500; library fund, \$2,338.73; total, \$166,555.03. Overdrafts were as follows: Manual Training School fund, \$19,985.29; tuition fund, \$145,301.10; total, \$165,-286.49; cash balance on hand, \$1,268.54. Make Your Money Work

Idle money helps nobody. If you have funds you hold as trustee or agent, or which you have put aside for a definite use in the future, you can make them earn interest by depositing with the Union Trust Company for a given time. If needed, they can be drawn out at any time, but will receive no interest. This company is an authorized depository for trust funds, and all courts will approve of its use for such purposes. use for such purposes.
